WORK EXPERIENCE

2022 – Present   **Trainee Web Developer at Thomson Reuters**
                     I am currently working on Html, Css and Javascript for past 10months.

PROJECTS UNDERTAKEN

1. **HOSPITAL MANAGEMENT SYSTEM:** Hospital Management System is a web-based application that helps manage the information related to health care and is developed using HTML,CSS and DBMS.

2. **SCHOOL MANAGEMENT SYSTEM:** School Management System is the project on file structure that helps manage the information of various school and is developed using C++.

3. **COFFEE CLUB:** Coffee Club is the project on web development that maintains the order of customer and deliver the orders to customer, developed using HTML, CSS, python and MYPHPADMIN.

4. **AIR POLLUTION MONITORING SYSTEM:** Air Pollution Monitoring System is an IoT based project that helps to check the quality of air. It also helps in checking the temperature, humidity and various gaseous in air and displays the readings in LCD Display and also in webpage. When the threshold value of temperature, humidity and LPG gas reaches beyond the normal value an alert message is sent to admin's mail so that he can take the further actions.
